

## CHILD FIND: A Community Collaboration Effort! Calling Birth through 5 year olds!

### What: Child Find Screening

Child Find is a screening activity designed to help schools identify and evaluate children ages 0 through 5 who may be eligible for special services. Screenings are in the areas of hearing, vision, motor skills, speech & language and thinking.

Any parent, who is concerned about their child, is encouraged to call Flathead Special Education Cooperative to set up an appointment. The screening is free and is conducted in a safe, child-friendly atmosphere by qualified personnel from Flathead Special Education, Child Development Center and Head Start.

The Flathead Special Education Cooperative provides Related Service personnel to deliver Special Education services to our rural member school districts across the Greater Flathead Valley including Flathead, Lincoln and Lake County schools. We provide community services such as **Child Find** for children and students within our member school districts. We partner with Child Development Center and Head Start to meet the needs of our community's children. If you have concerns about your child or aren't sure about what school district you are in please don't hesitate to call!
